

E^VOLVE WITH ASSESSMENT March 2018

ASSESSMENT SYMPOSIUM

Save the date for a half-day assessment symposium hosted by the Professional Development Committee—tentatively scheduled for **Tuesday May 15** with Dr. Amelia Parnell (VC for Research & Policy at NASPA) as the keynote speaker.

ASSESS LISTSERV

There have been some fascinating conversations taking place on the ASSESS listserv. Whether you love assessment or loathe it, there have been some great arguments presented. Check it out!

IMPLEMENTATION PLAN

Departmental Implementation Plans for the new Divisional Tactical Plan are **due April 6**. Upcoming training dates to walk through this submission via the Baseline template are posted on [our website](#).

Your department may also [request an individual training or consultation](#) if you would like assistance in the development of your implementation plan submission. Remember that we are only asking for one action item per objective in the new tactical plan, and we do NOT expect departments to provide an action item for ALL objectives.

DATA REQUESTS

All data requests must go through the Office of Assessment and Strategic Initiatives (dlassessment@utk.edu).

UTK TRIVIA

What on-campus road was built by UTK Engineering students in 1912?

ACTIVITY CODES

Please have all rosters from fall 2014-present [uploaded by April 15th](#). This will impact the robustness of our inaugural co-curricular transcript (VET) and our historical data for those codes not associated with the VET.

ANNUAL REPORT

The 2017-2018 Annual Report deadline for departments is **FRIDAY, JUNE 29th!** YOU GET A WHOLE EXTRA MONTH!!! You will report on data from **summer 2017, fall 2017, and spring 2018**. The extended deadline will provide you with more time to report after all data has been collected. This extension is the result of us hearing what you said. Thanks for sharing!

Unsure of what to put in each form in the Campus Labs' Planning module for the Annual Report? [Sign up for Annual Report Training here](#), which will go through each form to ensure clarity and understanding of the annual reporting process for AY 2017-2018.

STRATEGIC INITIATIVES MAP

Strategic initiatives can be very confusing, and it can be difficult to see how all of your efforts connect to support growth for your department, for the division, and for the University. Please refer to this [MAP](#) when making sense of strategic plans, tactical plans, operational plans, annual reports, etc.

STUDENT LIFE ASSESSMENT AND STRATEGIC INITIATIVES
