

# E<sup>V</sup>OLVE WITH ASSESSMENT

JUNE 2018

## QUALTRICS UPDATE

Calling all those who use Qualtrics! **The University's contract with Qualtrics will end in September 2018.** If you have data stored in Qualtrics, please download and save it this summer! As a Division, we ask that departments utilize Campus Labs Baseline for all surveys from here on out. This will streamline our assessment processes moving forward. Thank you!

**TRIVIA** What textbook, from which the UT English Department still receives royalties, did Dr. John C. Hodges originate?

## SCHEDULE A TIME WITH MELISSA

All department directors and their Assessment Champions have been contacted by Melissa with the request to set up a one-on-one meeting. In this meeting, Melissa will help departments nail down the following:

- Select 3 assessments for the coming year based on your Implementation Plan actions identified by your team in April
- Top 10 Key Performance Indicators (KPIs)

Directors—if you have not already scheduled this meeting, please do so by visiting the site below and picking a time that works for you: <https://mabrown.youcanbook.me/>

**2017-18 ANNUAL REPORT** is DUE this month!

[Click HERE to schedule a one-on-one help session!](#)

Remember—your submission will include the forms in Campus Labs Planning (formerly Compliance Assist) **and** the Executive Summary Word Document (see the top link for detailed descriptions and instructions related to each). Your text in the Executive Summary Word Document is what will appear in the Annual Report publication.

## SHARED IDRIVE FOLDER

The Office of Assessment & Strategic Initiatives has created an iDrive folder accessible to ALL staff members in the Division of Student Life titled "Share\_Assessment." We will store educational documents and resources in this folder.

## GOT ASSESSMENT QUESTIONS?

## SURVEY SAYS: CRAFTING SURVEY QUESTIONS

When asked what you wanted to learn at the May Assessment Symposium, many of you stated that you want to learn how to write direct-method survey questions to measure learning. We could not cover this at the symposium, and thus want to provide the following resources on direct-method surveys:
